

Reorganizations to facilitate access to electric grid in Moscow region!

Power industry initiatives have achieved high positions in the National rating of the Russian Federation constituent entities' investment prospects.

The base vector of reorganizations is convenience, time saving and cost efficiency for our customers*.

Time

- Simultaneous conclusion of utility connection and power supply contracts
- 70 days maximum to provide connection for facilities requiring 15 to 150kW

Possibilities

- Having all stages of utility connection online at utp.moesk.ru means no need to visit power supply company at all.
- Free of charge courier delivery of the documents

Money

- Calculation of the minimum cost of utility connection contract.
- Possibility to choose individual payment schedule with payment in installments (up to 3 years)

We can provide you with any type of power relating works to be performed by the experts of regional power supply company you can rely upon.

No agents. Always in time. Quality guaranteed.

Please ask your utility connection related questions via:

- Our «Clear line» 8 (800) 700-40-70
- Your account at moesk.ru or portal utp.moesk.ru
- Our customer oriented forum at forum.moesk.ru

Reorganizations of PAO MOESK IS TO SUPPORT REGIONAL INVESTMENT PROSPECTS
