with the help of online calculator on [utp.moesk.ru](http://utp.moesk.ru)

# WE MADE THE GRID CONNECTIO

## PAPERWORK

Filing an application ► Contract Conclusion

### You can file an application for grid connection:

- in your User account on [utp.moesk.ru](http://utp.moesk.ru);
- in any MOESK client office.

### We recommend:

- To represent your intention to simultaneously
- conclude the Grid Connection (GC) and Energy Supply (ES) Contracts;
- Order document delivery by courier company;
- Use the individual installment payment schedule up to 3 years.

### How can you learn the status of your application and Contract completion?

- in your User account on [utp.moesk.ru](http://utp.moesk.ru);
- on GC Portal in «Online Services» section;
- by sms or e-mail.
- by «Clear line» phone 8 (800) 700 40 70.

MOESK shall draft for you a formal offer of a Grid Connection (GC) Contract, the tentative technical specification (TS) and the Energy Supply (ES) Contract.

### The period of your documents receipt shall be:

The GC Contract and the TS shall be available in your User account side from the part of MOESK with e-signature.

To conclude the GC Contract you can use **THE ELECTRONIC SIGNATURE**. This will obviate the need to visit our office.

In case you do not use the e-signature please send back the signed copy of the GC Contract to the client office. MOESK shall start the TS activities execution from the Contract date\*.

The Contract value is calculated based on the statutory tariffs for PJSC MOESK. You can find the tariffs and make in advance calculations of approximate grid connection cost on [utp.moesk.ru](http://utp.moesk.ru).

You can pay for the service in your Personal Account or on [utp.moesk.ru](http://utp.moesk.ru) Portal.

### Online payments save your time!

\* Maximum period of the GC Contract turn-in shall not exceed 30 days.

## 2.

## GRID CONNECTION

Works performance ► Receipt of acts

### Highlights

1. MOESK constructs the electric grid up to the borders of your land plot.
2. You shall have to enforce the requirements of engineering specifications which includes construction of the metering station.

### Actions execution terms:

 up to **63** days

1. **Notify MOESK of the works completion from your part by whatever way at your convenience:**

Personal account  
lk.moesk.ru

E-mail  
client@moesk.ru

«Clear line»  
8 (800) 700 40 70

2. **Our expert employees will contact you in order to coordinate the date and time of your facility examination.**

**In the absence of any comments MOESK shall energize your facility at the date of inspection and issues the following acts:**

Grid connection certificate

Certificate of ownership responsibility split

Certificate of maintenance responsibility split

Grid connection confirmatory documents, signed by MOESK with e-signature, would be available in your Personal Account.

1. *To sign documents you can use e-signature. E-signature eliminates the need to visit offices.*
2. *If you are not able to use e-signature, you need to sign documents and give it back to the client's office.*

**The Grid Connection Contract is now executed!**

**Your facility is now connected to power grid!**

Before

Now
